rosen and gayer s public finance provides the economic tools necessary to analyze government expenditure and tax policies and along the way takes students to the frontiers of current research and policy while the information presented is cutting edge and reflects the work of economists currently active in the field the approach makes the text accessible to

undergraduates whose only prior exposure to economics is at the introductory level the authors years of policy experience have convinced them that modern public finance provides a practical and invaluable framework for thinking about policy issues the goal is simple to emphasize the links between sound economics and the analysis of real world policy problems enhancements and key features for this new global edition include new policy perspectives introduce relevant and engaging examples of international policy so students can extend their understanding of theory to policymaking across the globe new empirical evidence applications provide students with real world examples that are relevant to them from case studies about sweden and china to global examples that compare experiences between countries updated end of chapter questions broaden critical thinking encouraging students to apply their knowledge to international and comparative examples the results of econometric models are used to help students understand how expenditure and tax policies affect individual behavior and how governments set policies integrated theory and analysis institutional theoretical and empirical material is interwoven to provide students with a clear and coherent view of how government spending and taxation relate to economic theory current research is presented alongside discussion of methodological and substantive controversies the approach is modern theoretical and empirical and shared by most active economists institutional and legal settings are described in detail and the links between economic analysis and current political issues are emphasized this global edition has been adapted to meet the needs of courses outside of the united states and does not align with the instructor and student resources available with the us edition

principles of corporate finance is the worldwide leading text that describes the theory and practice of corporate finance throughout the book the authors show how managers use financial theory to solve practical problems and as a way to respond to change by showing not just how but why companies and management act as they do this text is a valued reference for thousands of practicing financial managers the tenth edition has been rewritten refreshed and fully updated to reflect the recent financial crisis and is now accompanied by connect finance an exciting new homework management system

discusses the basics of strategic management as well as financial management and explains how businesses can formulate strategies to pursue their financial objectives and strengthen their financial position it is intended as a text for postgraduate students of management in addition students pursuing professional courses such as chartered accountancy mfc as well as professionals in the corporate sector will find the book useful

for corporate managers maximization of the profits and the market value of the firm is a prime objective the logical working out of this principle in multinational enterprises has led to an intense focus on transfer pricing between related companies principally on account of the very attractive tax advantages made possible inevitably numerous countries have established transfer pricing legislation designed to combat the distortions and manipulations that are inherent in such transactions this important book one of the first in depth analysis of the current worldwide working of transfer pricing in intra group financing and its resonance in law presents the relevant issues related to loans financial guarantees and cash pooling analyses an innovative possible approach to these issues and describes new methodologies that can be implemented in practice in order to make intra group financing more compliant with efficient corporate financing decisions and the generally accepted oecd arm s length principle comparing the tax measures implemented in the corporate tax law systems of forty countries this study investigates such aspects of intra group financing as the following corporate finance theories studies and surveys regarding financing decisions application of the arm s length principle to

limit the deductibility of interest expenses impact of the oecd s base erosion and profit shifting beps project transfer pricing issues related to intra group financing credit risk in corporate finance rationales utilized by credit rating agencies and the assessment of arm s length nature of intra group financing the author describes ways in which the application of the arm s length principle can be strengthened and how the related risk of distortion and manipulation can be minimized the solutions and methodologies proposed are applicable to any business sector given that determination of the arm s length nature of transactions between related companies is one of the most difficult tasks currently faced by taxpayers and tax administrations around the world this thorough assessment and analysis will prove extraordinarily useful for in house and advisory practitioners corporate officers academics international organizations and government officials charged with finding effective responses to the serious issues raised in addition to its well researched analysis the book s comparative overview of how loans financial guarantees and cash pooling are currently addressed by oecd member states and by their national courts is of great practical value in business decision making

principles of corporate finance is the worldwide leading text that describes the theory and practice of corporate finance throughout the book the authors show how managers use financial theory to solve practical problems and as a way to respond to change by showing not just how but why companies and management act as they do this text is a valued reference for thousands of practicing financial managers the tenth edition has been rewritten refreshed and fully updated to reflect the recent financial crisis and is now accompanied by connect finance an exciting new homework management system

a properly structured financial model can provide decision makers with a powerful planning tool that helps them identify the consequences of their decisions before they are put into practice introduction to financial models for management and planning second edition enables professionals and students to learn how to develop and use computer based models for financial planning this volume provides critical tools for the financial toolbox then shows how to use them tools to build successful models

the tenth edition builds on the success of past editions to provide an up to date survey of the entire finance discipline it provides a valuable overview of the major financial concepts of the disciplines as well as a solid foundation upon which future courses in finance can build whereas most survey style introductory texts still tend to emphasize corporate finance this book s key strengths are balanced coverage between three major fields of finance institutions investments financial management and an integrated perspective on the interrelationships among them as an introductory survey the book is written with a user friendly focus conveys basic knowledge concepts and terms leaving the finer points discussions of theory and complicated topics for more advanced course work

previous editions of this comprehensive reference book have been called arequired reading for students investors and writersa by usa today and aa teeming reservoir of informationa by the oakland tribune updated to reflect the 2006 investment climate the new edition of barronas finance and investment handbook presents a financial dictionary of more than 5 000 terms an analysis of many current investment opportunities guidelines for non experts on what to look for when reading corporate reports and financial news sources an up to date directory of hundreds of publicly traded corporations in the united states and canada and a directory listing the names and addresses of brokerage houses mutual funds families banks federal and state regulators and other major financial institutions here in one big volume is indispensable information for planning and maintaining a healthy investment portfolio
