using a process approach this in depth introduction to parenting children from birth through adolescence includes the theories and practical strategies for how parents and caregivers can establish secure and close emotional relationships with their children the book focuses on two basic tasks of parenting creating close emotional relationships with children and establishing effective limits for children it shows how parents carry out these tasks with children of different ages and with changing life circumstances i e working parents divorce each chapter includes a section on the joys of parenting reinforcing the positive aspects of being a parent

despite the fact that most people become parents and everyone who has ever lived has had parents parenting remains a mystifying subject about which almost everyone has opinions but about which few people agree striking permutations on the theme of parenting are emerging single parenthood blended families lesbian and gay parents and teen

versus fifties first time moms and dads divided into four volumes the handbook of parenting is concerned with different types of parents basic characteristics of parenting forces that shape parenting problems faced by parents and the practical sides of parenting contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about because development is too subtle dynamic and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny

please see volume i for a full description and table of contents for all four volumes

eighteen new chapters have been added to the 2000 edition of this valuable handbook which serves as a core text for students and experienced professionals who are interested in the health and well being of young children it serves as a comprehensive reference for graduate students advanced trainees service providers and policy makers in such diverse fields as child care early childhood education child health and early intervention programs for children with developmental disabilities and children in high risk environments this book will be of interest to a broad range of disciplines including psychology child development early childhood education social work pediatrics nursing child psychiatry physical and occupational therapy speech and language pathology and social policy a scholarly overview of the underlying knowledge base and practice of early childhood intervention it is unique in its balance between breadth and depth and its integration of the multiple dimensions of the field

this authoritative based book explores the science of parenting a body of knowledge built upon study rather than opinion and the work of experts who have conducted research in this discipline it emphasizes that the parenting experience differs across cultures and social class and acknowledges the impact time place natural circumstances and expectations have on how children are cared for and raised coverage includes information on the decision to parent learning to parent and a historical perspective on the subject with parenting experts throughout the ages the various aspects of parenting the interrelated forces that influence it and developing the skills to deal with them remain a focus throughout the entire book for anyone thinking about becoming a parent or already a parent who wants a valuable resource of information to help deal with the complexities involved in raising a child

it might be the most important book about being a parent that you will ever read emily rapp black new york times bestselling author of the still point of the turning world brooks s own personal experience provides the narrative thrust for the book she writes unflinchingly about her own experience readers who want to know what happened to brooks will keep reading to learn how the case against her proceeds but it s brooks s questions about why mothers are so judgmental and

competitive that give the book its heft npr one morning kim brooks made a split second decision to leave her four year old son in the car while she ran into a store what happened would consume the next several years of her life and spur her to investigate the broader role america s culture of fear plays in parenthood in small animals brooks asks of all the emotions inherent in parenting is there any more universal or profound than fear why have our notions of what it means to be a good parent changed so radically in what ways do these changes impact the lives of parents children and the structure of society at large and what in the end does the rise of fearful parenting tell us about ourselves fueled by urgency and the emotional intensity of brooks s own story small animals is a riveting examination of the ways our culture of competitive anxious and judgmental parenting has profoundly altered the experiences of parents and children in her signature style by turns funny penetrating and always illuminating which has dazzled millions of fans and been called striking by new york times book review and beautiful by the national book critics circle brooks offers a provocative compelling portrait of parenthood in america and calls us to examine what we most value in our relationships with our children and one another

your key to a vast variety of texts on parenting both in and out of print from more than two decades resources on every stage of development family resource coalition report a unique and important tool belongs in every library s reference collection rq
